Tried to add a fifth crd but anywhere I put the cards (slots 4 and 6) and
even if I put the last mec on this card there is always that error coming
up !
63/3f error in initialsing Paris.
It shows after stabilizing adat cards on mecs and just before it would start
the dx/vst search...
Any suggestions ?
Regards,
Dimitrios

63/3f??? That's a weird error prompt... never heard of, or came
across, anything like that!
