Thought I would see if there is any interest in the Brian dvd (I have watched it about 20 times at this point and am ready to let it go).

Also, I have one of the Paris foot switch things that lets you punch in and out with your feet so you can hold you guitar, or whatever, while you record.

Anyone dying for these items?

Also, I Want To Buy an 8-in card. Don't care about the color, so long as it works.

Thanks,

Phil
