Thought I would see if there is any interest in the Brian dvd (I have watched it about 20 times at this point and am ready to let it go).

Also, I have one of the Paris foot switch things that lets you punch in and out with your feet so you can hold you guitar, or whatever, while you record.

Anyone dying for these items?

Also, I Want To Buy an 8-in card. Don't care about the color, so long as it works.

Thanks,

Phil

Yes, I'm very much interested in the foot pedal! I'll PM you.

There are two 8in cards in the rig posted by Corran on the 23rd - that's a decent price for 2 8ins plus a spare MEC and C16.

I saw that post- unfortunately, I don't have the room or the desire to have the other stuff. I just want one 8-in. I just spent the last 6 months finding homes for my spare c16s, mecs, edses, etc...

I will watch for your PM.

Thanks.

Ah - the reason I thought of that ad is that near the top he says he'd like to sell it piecemeal, which is what you're asking. Have you tried contacting him?
