Yes.

If you raise your eq out to that level you see another quality in your digital audio files.

I really love that sound too !

So its like DJ's preamp 176 different sounds from Paris, some iron sound with this EQ settings is achieved !!!

Regards,

Dimitrios

I can't recall if it was Scheiner or Schmitt that said (about mixing) "turn the knobs 'til it sounds good," but boy, that's the truth. Yeah, I've had a lot of good things happen at +5 and +6 on the Paris eq's.
