unfortunately, mine did not..... I got a lot of text garbage up on your site

Kerry.

Well, we know what's not going to work :)

Now, let's get to what will work

That seems to have gotten it.
OK Outlook Express users, here's what I did in Outlook Express ver 6.

In the Toolbar (file, edit, view, tools, message, help - at the top of the main window)

Go to Tools
Options
the Send Tab

News Sending Format Section at the bottom, select Plain Text radio button
Click HTML SETTINGS button
Encode test using *Base64* option
Do Not check use 8 bit headers
Do check Send Picture With Messages
Do check Indent Message On Reply

Hope I didn't miss anything important, I've got a bad case of the flu,
head's a little off base...
