Hey where can i get that eq plugin that came out around the same time as NoLimit.

Can i use it on the global inserts?

Is myparisprosite gone?

thanks,

jeremy

If this is the FreQ he's talking about, it's definitely usable on the global
master.

Chuck was giving these away last time I looked so I don't think I'm breaking
any rules by posting this up here.

Enjoy,

Deej

Memory serving, Chuck quit making this one available due to a bug in a freq
band... I can't remember if it was the low or the high pass, but one of them
oscillated out of control. My guess is he didn't post that up in the last
free batch for that reason.
