Yo all, I finished this one about a couple of months ago. Looks like they have released some songs online from it - <http://www.myspace.com/playdancerepeat>

I'm *still* finding little nooks of tone and volume inside Paris - especially with Mike's EDS plugs.

Hey Carl

Really like some of these tunes. Which ones did you work on? Lots of good stuff here.

Yeah, the material's not bad. I didn't track the "So Long Goodbye" song, but I recorded, mixed and mastered everything else except some overdubs (strings, horns, some bgv's, some keys).
