This is the biggest load of disingenuous hubris I've seen in a while. More hypocrisy. Whether you get it or not, your intelligence has just been insulted and be assured that what this is really all about it preparing you to be bent over as consumption falls. Expect more of this BS as gas usage goes down and therefore the tax revenue that a gallon of gas generates is proportionately reduced. To make up for the revenue shortfall, we're going to get taxed into oblivion.....and I was even sorta' thinking about voting for a Democrat for president. The new formula for the American economy is to tax businesses more so that they will continue to go elsewhere while screwing the workers who will be losing their jobs.

Gimme some of that.
