Subject: Can I use PARIS hardware with Wavelab Essential or do I need a soundcard

Sorry if this is a basic question.

I just installed Wavelab Essential to do some mastering. Do I need to get a soundcard or can I use the PARIS hardware with the ASIO driver for Wavelab?

If I can use the PARIS hardware does the Paris app need to be opened to do this.

Sorry for the rudimentary questions, but it's late and I don't feel like thinking.

Thanks,  
Pete

There exists an ASIO driver, but I don't think it's ready to use. A few ppl have been able to do so, but many more had shaky to no luck. Get a card, save yourself the hassles.

At Creative you can pick up EMU refurbs with warranties, 79 on the 0404 and 159 including shipping on the 1212m(this one uses the same A/D D/A chips as PTHD).
