Subject: Samples Recorded Live on PARIS

Hey Folks,

I recently put my "B" system to good use by recording some local Indie bands.
The front end was an Allen & Heath GL 2200 direct to 16 trk mec 16 bit.
I put about an hr of mix / clean up work into each tune and used very little fx or widening since it's not my music. I did get permission to post the samples though.

Here are the links - the files are wav not mp3s.

Rock on,
Lance

We're pretty happy with the recording qualtiy on this.

These guys were awesome but pretty loud.
The before and after mix is pretty amazing
