Here's a new AMP that's coming out. They have video demos of different styles.

I think they're in the ball park with that Pantera, Zakk Wylde triple rectum fryer sound, if your in to that sort of thing. There's some good sounds, blues and clean etc., but then again, I'm a drummer, what the heck do I know!!!
;)

Triple-Plectrum-Flyer??? How the hell does one play with three picks at once?

:)
