I removed all Cd drivers, and there were too many.

Restarted with the new DVD burner, same crash.
Checked the driver, it's the only one available.
Removed it under safe mode.

Put in the original Cd burner - worked for 3 years until now.
same crash. checked the driver . no problems there.

Can't thank you guys enough for your help.
Looks like I need more!!!

I started out recording trying to do all my compression in the box, for reasons
of cost and

d party software to defrag a hard drive.This, along with the
joy involved in doing simple things like copying files from a CD must be the
isuck feature.

;o)

I'll give it a try.

I did a search on the blue screen VXD--- error.
It's nothing new and has plagued various Cd applications for years,
sometimes
with no known solution. S@$&*%$#T!!

Luckily I don't need a Cd burner for a few days.
