
Subject: No Meter Activity with Kjaerhus Gold Plugins

Hi,

I am pretty new to Paris, using it for about a year now and I love it. When I had problems or questions, I always found an answer in the NG archives. But this time I really need your advice because I'm out of ideas.

I've got this Gold Bundle from Kjaerhus and it works and sounds great with Wavelab. But on Paris the meters don't work and the parameters go back to default every time I pop it up during a session. Sonically it works: I can do changes which I can hear, but the next time I pop it up, all parameters are back to zero. Sonically the parameters are not affected, I still hear the same sound as I adjusted, but graphically all jumps back to default, and still no meter activity.

Does anybody has experience with this behavior or is someone successfully using these plugins with Paris?

I hope somebody can understand my problem, my english lessons are pretty far away...
I'm running Paris 3.0 under Win98.

Thanks Simon
