OMG, has anyone seen this technology? Melodyne has been around for a long time but the capabilities of these newer programs is just simply astounding. Does anyone know if Melodyne cre8 or the Melodyne plugin is functional in Paris. It uses VST, AU, RTAS, DXi (via MelodyneBridge), whatever that is and ReWire. Has anyone ever used this stuff? It also imports and uses these file formats: WAV, AIFF, SD2, mono and stereo. This is truly amazing stuff.
