>DennisHello,
   I have decided to to sell my Paris system. It's been good to me, but it's
time for me to part with it. A picture of it in my studio when I was last
using it can be seen here:

http://trensolrecords.com/studio.jpg

Smoke free and clean enviorment. I used to actually sell the system for
Mcfadyen Music, Fayetteville NC. Some of you may know Andy Pow, my mentor
and ex-coworker :). He posted some on this forum in the past.

Well this is what i have:

2ea EDS Cards
2ea 8in Cards
2ea C16's
1ea MEC with cable

all items in excellent working order, one of the C16's has a few scratches(but
not many). MEC also has a few minor scratches.

Any reasonable offer will not be refused. I would like to sell the entire system if possible, but will part out.

Email me or call me with details ASAP. Ebay unfortunately will be my next stop.
