I live in Fallbrook, work in Carlsbad. So I could pick it up.

Please let me know either way. Thanks!

Paul

the following article.:

http://www.prosoundweb.com/recording/tapeop/tube_mic_25_1.shtml

Mike did a great job on these.

Mic #1 is the original he built in 2001 that was sent to Morgan at ECCM and A/B'ed against some pretty major competition (and he

a very smooth "buttery" kind of quality. Not smeared at all and very detailed, but a different quality from Mic #1. If I were going to mic a vocalist with an edgy midrange, I'd grab this one to add a little touch of discipline.

I really like both these mics and they have served me well. They are excellent on instruments too and the only reason I'm offering these up is that I've got more mics here than I'll ever use and I've discovered another mic that is quite a bit more expensive and if I don't buy it I will die.

Both of these come with an external PSU, 5 pin PSU>mic cable, and shock mount. I found a couple of big plastic pistol road cases at a gun store and they hold the mics, mounts, cable and PSU snugly and securely.

Asking \$450.00 each for these.....or I guess you could pay \$1000.00 for the Mojave 200 which is based on roughly the same circuitry/components. (I'd be open to a little negotiation on this)O'Yeah.....mic #2 also has the same cardioid Peluso capsule as mic #1.

Hey Deej,

Which SDCs are you using if you're selling these fine pieces?

Tom
