Well folks after 20 years of using PARIS I've realized it no longer fits my needs and I'm going another direction. So I'm dismantling my fully working 3 card rig and selling it all.

For sale:

(1) EDS 1000 card - \$125 shipped to the US or Canada.

(2) Black 8 Input cards - \$125 each shipped to the US or Canada. I'll include a free SMPTE card with the first card bought.

(2) Black MEC's - \$50 plus shipping. Some of the blank panels may be missing, thus the cheap price.

(2) Black C16's - \$50 plus shipping.

If anyone wants it all I'll do \$500 shipped, that will include all the cables I have and most of Mike's extra plugins I've purchased.

I'm open to all offers also, it all has to go to make the wife happy. I can send pictures if needed on any items.

I take paypal or bank to bank payments.
