Universal Audio Solo 610. "Like New" - \$550.00 this thing is a very nice preamp/DI, especially for a gigging musician. I used it as a studio DI. Not a scratch on it.

DBX 566 Stereo/dual mono compresor-one of the VU meter lamps is burned out. Unit functions perfectly--\$400.00 You can get a very convincing DBX 160VU kinda sound out of this.

I am selling my pair of Yamaha MSP10 Powered Monitors (8" woofer) and the Yamaha SW10 (10" sub) that complements them. Also including the Auralex Mo-Pads and Gramma that is

olate the speakers and sub from the floor.

Don't have room for them any more. They sound awesome, I hate to see them go.

I'm asking \$950 which I think is reasonable since everything new was over \$2000. I've been trying to sell them locally but haven't found enough interest. Willing to pack them in really big boxes and ship now.

Not sure if anyone here will be looking for something like this...if not, any suggestions on a good forum to post them besides Ebay and Craigslist?I need to thin out my stockpile of Paris parts. I figured I should offer it here in case any Parisites are looking for anything before putting it on eBay. Here is what I have for sale:

EDS-1000 cards (3) \$150.00 each

8-input cards (one black, one blue) \$150.00 each

All items are in good working condition. Price includes shipping anywhere in the lower 48. Email if interested.

I might consider a trade on any one of these items for an ADAT card....

Thanks,

TD
