I did send a response to the people who did offer me the in/output cards
but i got no reply's.
So i am still open for offers.

Cheers,

DennisHi all,

After 2 years of not really using my Paris system, I think it's time for it
to go to a new home where it will be loved and looked after properly. :-)

It's a Paris III system of Ensoniq vintage, MEC rack with 1x analogue
8-input card and 1x 8-output analog card, and the usual honking great PCI
card. There's also a black Control-16. I'll be listing it on eBay in the
next few days, but if anyone wants to jump in first and make me an offer,
email me at sarah@findatlantis.com and we can sort something out. I'd rather
sell it within the Paris community if I can. Everything is in very good
condition, and I'll shortly (I'm photographing stuff this afternoon) be able
to send you photos of the actual equipment.

Best regards,

Sarah ThompsonEDS1000 w/ribbon cable set - \$225

8-out card for MEC - \$200

ADAT card for MEC - \$200

Prices include shipping, US only.

thanks!

MikeHi Randy,

Is everything still available? If so, shoot me an email at
carson_wayne@msn.com
