I'm looking for a Paris 3.0 manual if anyone might know where I could get one. Not sure if it was available in the old Paris Reference Library. Would love access to that library, but the wayback machine blocks it since it required wiki registration. I'm late to the party!

Cheers,
Greg

Hi Greg,

I can send you a pdf file, but it's too big to send on this forum.
What is your personal email?

Thank you Gordon. I got the manual through the help of someone.
