Yep, got to meet with Phil Dudderidge about this more than a few months back and was quite happy to learn of it. Now, not to spoil the fun....but wait another couple of months and see what they are going to unveil next, it's going to be one of the most revolutionary products YET..... Sorry, I can't say anything further ;-)

That looks like an ass-kicking unit... "lowest cost per channel" yet, out of the Mucusrite ISA line? That would bring this thing in at around \$3k street, at most, wouldn't it?
