#6

At the top click on the menu "Resources" and in the drop down menu click "import image resource". Navigate to one of the

bitmaps you downloaded and choose it. YOU CAN ONLY IMPORT ONE IMAGE AT A TIME SO DO THIS FOR EACH IMAGE TILL YOU HAVE

IMPORTED ALL 4 BITMAPS.

#7

PE Resource Explorer has created a new folder named "bitmaps" that will contain the 4 bitmaps in it. You will now expand the

folder of the name of the first bitmap you want to swap out in the "PICT" folder. Start by selecting the first bitmap in the

"bitmaps" folder, do you remember the name because they have to be the same. Who knows what will happen if you mix them up.

#8

From the menu select Edit / Select All / Cut

Go to the same named bitmap in the "PICT" folder and select Edit / Select All / Delete. Then paste the new one.

Do this for all 4 bitmaps.

Then after all the new bitmaps are in place you MUST DELETE THEM from the "bitmaps" folder that was created.

Do this by clicking on the bitmap in the "bitmaps" folder number "1" and under the "Resource" menu click "Delete Resource"

and do this till all the bitmaps you imported are gone, including the folder it created. It MUST look just the way it did

before you imported anything, that means NO "bitmaps" folder anymore.

#9

Save and exit PE Resource Explorer, if upon exit it asks you to save click "yes". If you did everything right the next time

you launch PARIS it will have a cool new look. If not it will crash and you should go to the nearest mirror and say in to

it, "You idiot you listened to the elf". Then go back and replace the now contaminated PARIS.exe with the backup.

Congratulations you are a hacker!

Merry DAW Stuff,

Rogue Elf

P.S. Got a problem with this and affraid to mess up your warranty or support (LOL), go home momma's boy or girl!

---
