View Forum Message <> Reply to Message

Hi all.
Never worked this out.
If it IS possible, how the hell do you arm the master fared to
record movements?
Thanks.
Kim W.

Fared????? Sorry folks. (Jeez... I've heard that dyslexia IS a nasty disaese!)
The manual states that it can be done in c16 "pro" mode, but I don't use
"pro" mode. (and at this point in my illustrious career.. I don't really
give a sh*^ about being "pro!")
All I wanna do is automate those damn white fareds.
Happy new year to all!

Both the Master, and submix faders (or fareds)can be automated from the C-16
(yes, in classic mode) by doing the usual stuff (turning on automation and
edit automation on the mixer, arming the C-16 by pressing the solo and mute
at the same time)AND
clicking (and holding)on the apprpriate fader with the mouse.
Then use the fader on the C-16 for the moves.

If you put the C-16 in submix mode channels 1 thru 8 will control submix
1-8 and the master fader will control the Global master. When C-16 is in
normal mode the master fader controls whichever submix the C-16 is assigned
to.

Actually, when in submix mode, the submix faders can be selected with the channel sellect buttons on the C-16. You only have to clickk on the master fader, as there is no other way to select it.

Never mind.
I used my usual workaround. Lucky I found some more Blu-Tak!
I guess that's one way to mix an orchestra!
Kim

View Forum Message <> Reply to Message

Thanks, Rod.
You've saved me a fortune in Blu-Tak!
Now I'm gonna print out your instructions and stick 'em next
to my desk. (with blu-tak, of course!).
Cheers.
