Subject: UPDATED PSCL
Posted by Mike Audet on Thu, 07 Aug 2008 16:52:56 GMT

This is a multi-part message in MIME format.

---=_linux489b2867
Content-Type: text/plain
Content-Transfer-Encoding: 7bit

Holy crap! Running Cakewalk in the background seems to tie up a ton of CPU
cycles, and it completely through off the timing of the PSCL. It had me
scared for a while.

Anyway, I barely slept last night, but it is fixed. Along the way, I made
some threadsafe improvements to the code that initializes MEC modules. I

also had to update the ADAT driver to get it to load with Cakewalk tying up CPU cycles. There is a debug version in the zip file for anyone who is trying to run this on a dual CPU machine. I also made the code that detects the clock source during startup more reliable.

Anyway, the code seems to be a lot more robust. If you're having trouble getting multiple adat cards to load, give this a try.

All the best!

Mike

For your next trick, are you planning world peace man? Jeez, at this rate
you'll have every freekin bug fixed in XP. I am speechless man. I can't wait
until I can try this stuff on the rig!

AA

" I am speechless man."

Me too Aaron. Thanks Mike for all your work............. trying to support
you will all the gusto I can muster. Have a good vacation, you deserve it.

Rich
