I just ran across this while snarking around there.

From time to time, threads pop up here about cue mixing in Paris. I have a system similar to this one here and I can telly you for sure that this thing is an excellent cue mix system for large (and small) tracking sessions. The remote units have enough juice to drive AKG K240 600 ohm cans. It's incredibly versatile and the remotes have FX sends and returns. I've gort my remotes paired with small outboard reverbs on each one (Alesis Wedge Units). It's a dream come true and tracking sessions go really smoothly with these. The fidelity is excellent.

This is the first time I've ever seen one of these systems for sale on EBay. If you need a cue system for large sessions and don't use a big desk.....this is the ticket.

I just thought sopme of you guys might be interested in this.
