Subject: Error recalculating submix - the file already exists Posted by drfrankencopter on Wed, 15 Sep 2010 14:36:03 GMT View Forum Message <> Reply to Message

I'm encountering this error while working with virtual submixes:

"Error recalculating submix - the file already exists". Does anyone know how to get rid of this? Would be nice if it told me what file it was referring to. It's getting frustrating...

Cheers

Kris
