
Subject: ParisFAQs website second birthday today - source of drivers, instructions, etc...

After seeing requests for XP install instructions and ASIO drivers, I'd just like to point out that they've been posted at <http://www.parisfaqs.com> for some time. If you're looking for something about Paris and it's not on the site, send me an email and I'll see what I can do...

As a matter of fact, I created the site two years ago on January 17th!
