I've retired from the business. Time to let my Paris rig go:

1 Mec, 8 in card, 8 out card.

1 Interface 442

2 Eds-1000 cards

1 Control 16 (mint)

All this stuff hasn't been used for several years. Last time I fired it up it all worked perfectly.

Like someone else said, make me some unreasonable offers and I'll probably take 'em...

cheers

ps. I'm in LA if anyone wants to pick up anything in person

Hello Mr Campbell,

I am interested in buying your whole rig if you still have it. I bought my Paris system in '98 for my basement studio and am becoming concerned something is going to fry soon. This is why I would like to by your system, for redundancy. Let me know what you want for it.

Thank you,
Chad

Hi Chad,

Well, you're in luck. I'd be happy to sell it. To be dead honest I don't know what it's worth. Make me an offer if you'd like. What ever it is you'll have to cover shipping but I'll use box brothers and they pack VERY well.

Regards, Jim

ps. I'll leave the EDS-1000's cabled together There are very very few hours on the whole system.

Hi Jim,

How about \$400 + whatever shipping is? I am in the Badger State, though I have lived in Wisconsin most of my life I have never seen a badger!?

Later,
Chad

Done. 400 plus shipping it is. I'll shoot you a PM with details. PM yours. Oh, I've never seen a grizzly bear (*ursus californicus*) so I'm with you.
