I got an email from Gildas JALABERT, Sales Manager at Virtua Via yesterday telling me that the expansion chassis is still available.

I have no idea why they didn't respond to my phone calls and emails before, but I got two replies yesterday (one from an email I sent, and one from a contact through their web form).

Here is Gildas contact information:

I've been using their expansion kit for a long time now, and it's been perfect.

It can be ordered with a ExpressCard host connection, too, which should work to bridge it with a ExpressCard Thunderbolt adapter.

PARIS Lives!

Mike
