Hi Everyone,

I just bought Mike's reverb bundle, compressor bundle, and class A amp.

The purchase went fine and I could download the reverbs and amp no problem,
but there was no option to download the compressor bundle. Is there something
else I need to do?

Thanks,

Rich

I just wanted to let everyone know that Mike contacted me right away and got me the compressor bundle to me (and a little something extra for my trouble). Apparently there was some minor bug on the website that he has now fixed.

Excellent, professional service. I hope to try these out soon, but life may not allow that. I'll let you all know what I think when I can.

Thanks everyone (especially Mike),

Rich
