I wonder if I could fit into the Bustiers? And who wouldn't want that Church Pew?

Seriously though, I was thinking about the EWI...

I'm thinking about the "Ass't Drums & Symbols".

Anyone know a good symbol player?

There are a couple of Distressors and an ADL 1000 that wouldn't kill me to have here.

That's her touring gear. Probably all so obsolete and in need of repair that the warehouse bills exceed the cost of bailing it out and getting it operational again. Most of that stuff can be replaced by a laptop and software nowadays.

I wouldn't mind having that Hammond/Leslie combo.

Why yes, I do... in fact, he's standing over there next to the "Sy Fills " (first page, then scroll down to the Auction Notes).

Lots of interesting stuff there, I guesss - it's kinda like walking into a state-of-the-art studio, circa 1989.

What I want to know is: WHERE ARE ALL THE c-12's AND ELA-M251's THAT I CAN SNAG FOR LIKE \$400???? :)

Sad thing is, if you look at this note...

I was eyeballin' that Hammond/Leslie too. Always wanted to have the real thing.

Now if I could just have a roadie to carry them to my gigs!
