Not using it much nowadays. Good condition. I've also got it on our local Craigslist and will be putting it on Gearslutz.

\$325

Also: RME 9632 (eight channels ADAT / SP/DIF / stereo pair of analog I/O/ dedicated headphone out/MIDI).

\$275

Demeter bass preamp - Demeter VTBP-201 - Original blackface/1.5 R/U model, one of the greats. Separate Jensen transformers on the +4 and -10 outs.

\$400

(I'll cover shipping within the US and Canada)
