Subject: OMF Export from cubase sx3 to Paris

Hey!
I've been working a lot with cubase and Paris, but lately it's been almost
only cubase. I picked up my paris rig in a local studio here in town, they
been renting it for around two years. I want to open a OMF-file that I
export from cubase and import it in Paris but no go. Do any of you guys know
a workaround for this? I really would appreciate any help on this.
