Although your price is fair I bought some things and I run out of money right now...

The only thing I have for a trade is a Presonus Eureka with JENSEN input transformer and best opa's AD797 for a Class A transformer mic preamp with compressor and Eq.

This unit rocks.

I don't know though if it is of any interest to you.

Anyway thank you for your time and if you are interested on the above device please let me know.
