Subject: Automatic Latency Compensator: follow-up
Posted by Neil on Thu, 20 Apr 2006 02:56:43 GMT

OK, as I said, I had written to Aleksey @ Voxengo on y'all's
behalf to see if he could write said type of plugin, and
unfortunately, he doesn't think he could do it.... here is his
response pasted in below:

***Hello,
One person already asked me to make such plug-in. But I have declined due
to possible unsolvable technical problems. I'm still not much interested
in such project. I suggest you to contact other developers - especially those
who already have VST plug-in host working.
Best regards,
Aleksey***

OK, so one down.. NEXT??? May I suggest contacting someone who
works at Swineberg since they're the VST guru's anyway? Perhaps
they could do it as a side project if they don't have a non-
compete clause in their contract? Or perhaps someone who USED
to work at Swineberg?

Just trying to toss out viable ideas.

Neil
