Hi Parisites,

I'm trying to order some gear from Amazon (namely a headphone mix distribution system), however I can't proceed without a US address (I'm in Australia).

Would anyone here that lives in the US to be able assist me. i.e. I would have the goods send to your address and then pay you the send them to me in Australia.

Or if you can recommend any other solutions, please let me know.

Thanks,
Pete
