-----060302050807010000010603--It's common to record in Paris in 16 or 24 bit, 16 is fine
for rock and
roll and then master in 24 bit. The 24 bit is supposed to preserve more
dynamics and keep your noise floor low.

Edna wrote:

Yuck, all horns. Might as well use an old Community Light and Sound rig.Or a Laviathan rig... ;-)

David

With Community speakers, that's all in one box...just overdrive the
speakers (easy to do) and the overdrive warning lights will come on :-).

Many, many, many, many, many, many, many, many, many years ago I did FOH
work including quite a few gigs with all CLS rigs. Leviathans, LMFs (round

not rectangular) and a variety of HF horns from Community.
I have great stories about some of these gigs, like Hot Tuna at The Academy
Of Music on 14th St, NYC.
Not for public forums!
Gene
P.S.

then it's all good--bits at that point don't matter to me :)

around. I'll take a look tonight and if I have
them you are welcome to take them. I had 100s.

of my Kurzweil k2500..
I fat finger all the time..

Plus, my posting skills have diminished, since I don;t post as often as I
use to..:)
I'm back in "posting" training..(Lol)

r/rw, camcorder, fan (yes,
I actually have a remote control for my stand up room fan hahah), DAT and a
DCC.
The only thing I've found thus far that can handle most of it is a pocket
PC.. but even it won't hang the whole lot of 'em. Not to mention it was
about \$600 (gulp)

I don't want too much, do I?

Thanks !

AA

Dude!!!!!! ROTFL!!!!!! Don't change a thing!! You just need an infrared
patchbay to get this happeni
