Helios electronics is looking for pictures for their web site. Maybe you should turn Tony on to the whole SSC golden sound PARIS connection. I'm sure he'd love to hear about it, and SSC would live on for a little longer;

The estate auction mentioned the Custom Midas... I also remember an interview where he mentioned the Midas. I do not recall him ever owning a Helios desk... But who knows, I've been wrong before! ;-)

I remember mention of a Midas too, and I saw that reference in the estate sale. Maybe he modded the Midas with VU's that resembled those of the Helios? I think he modded everything he touched.

SSC may have owned a MIDAS. I never seen a MIDAS recording console though.

The picture sure looks like a Helios, may be he owned both??? I'm sure someday will really know.

I sent the pic of SSC to Helios. Here's the reply:

Doug

This does look like the Helios 'brown' at first sight. I'll forward it to a couple of people to see if they have more of an idea of its provenance.
