Hi folks,

I've told you that I film band promos in my garage for agents who book the Las Vegas, NV lounges. Below is a few links to my YouTube channel videos. Enjoy!

All audio is recorded "live" as they perform for the video. Mic-snake-Mackie 16vlz4 trim pot only-direct out to MEC. I then tune vocals and mix. PARIS mix is then imported to iZotope Ozone for a quick master and manually aligned to the video clips.

Each video is about 3-4 minutes

All really great. Super smooth. I appreciate the VSKings the most :)

Ted
