Greetings.

How many EDS cards do you anticipate using?

I'm using an Asus z97a, and it's been great. It has two PCI slots, but it works with an expansion chassis, too.

I hope this helps.

Hi Rokuez, I have a GIGABYTE - Socket 1156 - GA-P55-UD3L with i7 CPU. It has 4PCI and 3PCle slots that I was using as a 3 EDS card system under win 7. I switched PCs last year and have this combo for sale if interested.

Thanks

Robert
