Hi all,

I bought my system from 1999 to 2002. Here's what I've got:

2 EDS1000 cards
1 Control 16 (black)
1 MEC (black)
1 8-Input card
1 ADAT Card
Paris 3.0 license

The whole stuff for 450 € plus actual shipping costs. I'm based in Cologne / Germany, so shipping to EU countries would be easiest concerning shipping costs, tolls and taxes.

Best wishes,
Sascha
