Mike,

All reverbs you have ported are exceptional!

Plates halls ALL!

We need though same great sounding room reverbs !!!

Regards,

**Dimitrios**

Hi Mike,

I agree with Dimitrios. Your Drum and Vocal Plates have become my go to ever since I bought them. The standard Paris Plate has been lost in the shuffle now. An equal quality room would be a nice addition if you find the time.

Tom

I'll take a look at what's there. I think there is a room and a small room. Can you tell I'm a plate a hall guy?

I've literally spent the last 3 months doing nothing but work on the PSCL. I've been toying with rewriting using objects. We'll see.

I'll take a look at the algos tonight. All the best, Mike "Tom Bruhl" <arpegio@comcast.net> wrote: >Hi Mike, > >I agree with Dimitrios.
