This Tommy Detamore interview is up on Project Studio Network, show number 57. It's quite an eye-opener that at some point in the interview, the guy from PSN admits he's never heard of Paris. So from that point on it's all about that "vintage DAW", Paris.. :-)

Lot's of good samples of Tommy's playing as well. Very interesting...

Thanks Bill for the heads up. Great interview. Also great to hear all the positives about our favorite DAW.

Thanks to Bill T and everyone for taking the time to listen to my meanderings.
Take comfort in the fact that you are running a vintage rig :) Gene, give
me a holler. Maybe I'll just run up to NYC ..lol..
