hi everyone

it's great to see that this resource is still up an running. nice work.

i'm max howarth. i was a paris users for years and it genuinely made me smile seeing some of the names here again. we have a job from 2004 that a client might want access too. we kept our old backup system running on a g5 so managed to restore the paris 3.0 project and audio files. we have the paris hardware too but i'm not at all sure it's going to work in the g5.

so, i wondered if someone might be able to open the project up and export some of the edited audio for me.

if you think you can help, shoot me an email: max at redfacilities dot com

thanks so much and best wishes for 2023.
m
