I see it is a .bat file....how or where is it installed

thanks

Don

Are you referring to AnalogX's utility? If not grab it...

<http://www.analogx.com/contents/download/audio.htm>

actually no but that's what I was looking for

I have a file called Paris and autosave starter.bat anyone know what it is?

I was messin round with bat files a while back, could have been one of my creations. Basically, it was just a bat file that would start Paris and the AnalogX auto save app in one click. Just right click/edit the bat file,it should be quite apparent what it does from the string.
