Hi All

Here's hoping you have a Merry Christmas and all the best to you in the new year

Hey Guys,

It's been a long time since checking in but I wish all those still here a very happy new year!

Things are still highly functional with the Paris/Cubase combo I've been using. A recent project i've completed is Sahdaya Headshotz/Bodyshotz on iTunes. It has been mastered in a less than 'full' way but the client is happy. Sahdaya has an album being released on 2/14/13 which will include at least 15 tracks most of which mixed here at Dobo Studios. The other tracks are more traditional R&B with a modern twist. I'll have to be a part of the full project's mastering session next time.

I still look forward to a Win7-8 version of Paris if Mike can find a way to make it happen.

I look forward to throwing thoughts with anyone who is still part of the Paris family.

With warm regard,
Tom
