>And this is why most power users have moved to the crack! We PURCHASE the software, not rent it! ID's rules and business tactics are ridiculous and that is why THEY are dead with the audio world. And this is also why most proprietary software DOES NOT WORK! Get the crack and be happy until you move on to something else.... screw ID and their LIES and ridiculous made-up rules! In fact, if someone wanted to fight this in court, ID would prolly lose. Because they DID NOT disclose any of this in their initial release of 3.0. Edmund made this rule up when people were selling just their 3.0 to others when they didn't need or want it.
