Vary Cool, Carl! I can't put my finger on it, but it has flavors of ZZ, Kings-X, and Thin Lizzy.

Keep Rockin!

Thanks James. I can't take any credit for the music - it's some friends of mine from St Louis called Shame Club. I've been struggling lately with this gazillion-track prog-rock-later-peter gabriel wannabe group, and it's been a real downer to work through - so this has been a very welcome change. Shame Club is so live and stripped down - I'm just cranking the tracks up and

letting Paris rip. I've got an EDS comp on the 2-track, but nothing else on it. Just boosting up the output. It sounds so thick and juicy to me.
