Must install DirectX 9c because Sony Vegas requires it.

Till now I used DirectX 8.1

Are there any issues with PARIS and DirectX 9c.

Which is the best DirectX version for PARIS????

Need help as soon as possible.

Thanks.

Suad

Set a ghost point/system restore point before you do ANYTHING

Then, you'll have a safe place to get back to if the install goes sour for

DX9c.

Of course... Ghost is my No.1 application.

I can't imagine life without it..

The problem is that I'm booked and don't have a time for experiments...

....there is nothing worse than computer related problems in presence of clients...

Thanks and cheers.

Thanks.

....so you finally bought 3.0 software?

How much?
