Subject: paris compatible computer?
Posted by David Evan on Mon, 06 Oct 2008 18:07:39 GMT

hey everybody. my athlon xp 1800 system i built for paris in 1998 finally died! i need a new computer that will run paris and am wondering what my options are? i saw some $200 pentium 4 3.4ghz boxes but they have pci-e slots. will one of these work? i still have my windows 98se disc :)

thanks!

-david
